

# Standard Behaviour Modification Programme

What's included in this package...

After your initial enquiry, we will ensure this is the right programme for you, and leave you with anything that needs to be addressed immediately. A possible vet referral, may be sought before training commences.

Our extensive questionnaire will then be sent to you. Please do not rush when filling this out, and the more information that can be provided, the better that will be for our training.

A video/call appointment will then take place to discuss the questionnaire. This will last up to 45-minutes.

Three 1-hour training sessions will then take place at your home or training areas, and are broken down like so.

1. Our first session. This is aimed at covering all the basic skills, you'll need moving forward. We will cover here everything from threshold training, prompts, leash skills, tools needed, training areas and much more. We'll show you everything that will be needed for our training, and will set us up nicely for the rest of our training.
2. Session two. After session one, homework will be set for you to practice and keep you going in-between sessions. The homework left for you, will need to be completed before session two can start. Once that's done, we will look at putting those new skills learnt from session one, into more practical scenarios. Here we will work closely with you, to make sure you are confident in your own ability, as well as how to then use these new skills effectively, with your dog. At all times, we will be working with and guiding, both you and your dog at every stage.
3. The final session. At this stage, you're a fountain of knowledge, confidence & motivation. Everything you do has a purpose or with a goal in mind. In this session, we will continue where we left off from session 2, either with a set up organised training session, or look at more realistic training, dependent on your dog.

Also included in this package, is a step by step, in-depth work booklet, for you to study and assist you through training and beyond.

Additional training sessions from here, are 60 euros if training needs to be continued.

Finally, after each training session, feedback/homework will be given to you, so training can continue between sessions.

Aftercare once training has finished is free.

Total cost: 230 Euro

*Roughly 6 hours of trainer input*
