

# Advanced Behaviour Modification Programme

What's included in this package...

After your initial enquiry, we will ensure this is the right programme for you, and leave you with anything that needs to be addressed immediately. A possible vet referral may be sought before training commences.

Our extensive questionnaire will then be sent to you. Please do not rush filling this out.

A video/call appointment will then take place to discuss the questionnaire. This will last up to 60-minutes.

Five separate training sessions will then take place from your home or training areas, and are broken down like so.

1. Session one. Aimed at empowering the owner with the confidence to move forward. Here we may change certain aspects of the dog's home or walking environment, and teach you all the skills you'll need throughout our training. (90 minutes).
2. Session 2. Focuses on putting everything from session 1 into practice. Here we will practice all the skills we showed you from week 1, ensuring you are fully confident in areas like leash skills, games, equipment, and so on. (60 minutes).
3. The final 3 sessions. It's here we will positively and progressively, look at setting up training with both you and your dog. Here we will use our extensive work booklet, your new training skills, new found motivation and confidence, and work closely with you, as we put our training to the test. Nothing is rushed, and you're shown everything first, so you're left with the knowledge and confidence to continue, once our training concludes. (90 minutes each).

Also included in this package is a step by step in-depth work booklet, for you to study and assist you through your training.

Finally, after each training session, an email will be sent to you recapping everything that was covered that day, keeping you on track between sessions.

Aftercare once training has finished is free anytime.

Total cost: 400 Euro

*9.5 hours of trainer input and training.*
