

Advanced Behaviour Modification Programme

Included in this package is everything from our standard package.

In addition to this, 1 further training session has been added, and sessions 3 & 4 are no longer 1 hour, but 75-minutes, for even more training. Meaning, this package consists of two 2-hour training sessions, and two 75-minute training sessions.

If you have read our standard programme, sessions 1 and 2 are set up the same way. As we have added one extra session to this package and made the last two sessions longer, we spend the last two sessions working closely with the owner and dog, pushing their skills so they are confident enough to deal with any situation, once our training has concluded. As this package is for dogs whose behaviour may be more severe, the extra hands-on training here is invaluable.

Finally, after each training session, an email will be sent to you, recapping everything that was covered that day.

Aftercare once training has finished is free.
