

Standard Behaviour Modification Programme

What's included in this package...

After your initial enquiry, we will ensure this is the right programme for you, and leave you with anything that needs to be addressed immediately. A possible vet referral may be sought before training commences.

Our extensive questionnaire will then be sent to you. Please do not rush when filling this out, the more information that can be provided, the better that will be for our training.

A video/call appointment will then take place to discuss the questionnaire. This will last up to 45-minutes.

Three training sessions will then take place from your home or training areas, and are broken down like so.

1. Our first session is aimed at empowering the owner with the confidence to move forward. Here we may change certain aspects of the dog's home or walking environment, and teach you all the skills you will need throughout our training. We will teach you what situations should be avoided, what tools need to be used, and what games to learn, in order to move forward. (90 minutes).
2. Session 2. This session is focussed on putting everything from session 1 into practice. Here we will combine all of our previous training and support, and begin to positively introduce your dog to its trigger, all in a structured and safe way. Here we will test and adjust our training accordingly, but we always set both owner and dog up to succeed. (60 minutes).
3. The final session. By now, not just in our training sessions, but with your own walks, you will feel much more confident in handling situations with your dog. Our training should now be in full swing, and you are stacking up those good days. This session is to push your training and handling into more challenging situations, so when the time comes, you are confident enough to handle them yourself. (60 minutes).

Also included in this package is a step by step in-depth work booklet, for you to study and assist you through your training.

Finally, after each training session, an email will be sent to you recapping everything that was covered that day, keeping you on track between sessions.

Aftercare once training has finished is free anytime.

Total cost: 270 Euro

6 hours of total trainer input and training
