

# Standard Behaviour Modification Programme

What's included in this package...

After your initial enquiry we will ensure this is the right programme for you, and leave you with anything that needs to be addressed immediately. A possible vet referral may be sought before training commences.

Our extensive questionnaire will then be sent to you. Please do not rush when filling this out and the more information that can be provided, the better that will be for our training.

A video/call appointment will then take place to discuss the questionnaire. This will last up to 45-minutes.

Three 1-hour training sessions will then take place at your home or training areas, and are broken down like so.

1. Our first session is aimed at empowering the owner with the confidence to move forward. Here we may change certain aspects of the dog's home or walking environment, and teach you how to get the best out of your dog, by setting them up to succeed. We will teach you what situations should be avoided, what tools need to be used, and what games to learn to help our training.
2. This session is focussed on putting everything from session 1 into practice. Here we will combine all of our previous training and begin to positively reintroduce your dog around it's trigger. Here we will test and adjust our training accordingly, but we always set up to win, not fail.
3. The final session. By now not just with our training sessions, but with your own walks, you are much more confident in how to handle any situation. The positive association and counterconditioning training we have been doing should now be in full swing, and you are stacking up those good days. This session is to push your training and handling into more challenging situations, so when the time comes, you are confident enough to handle them yourself.

Additional training sessions from here on are 60 euros if training needs to be continued.

Finally, after each training session an email will be sent to you recapping everything that was covered that day.

Aftercare once training has finished is free.

Total cost: 230 Euro

*Roughly 6 hours of trainer input*
